Maiden/Other Names Used: _____					
Present Address: _____					
(Required)	Street Address	City,	State,	Zip,	How Long?
Social Security #: _____			DOB: _____		
(Required)			(Required)		

SCOPE OF SERVICE:

ChoicePoint will conduct a Social Security Number Validation (SSN Validation) to confirm that the SSN you entered is "valid and issued" using formulas provided by the Social Security Administration. Based on that information, a calculation is made as to what year, and in what state, a given SSN was issued. Since criminal history searches rely on name and address accuracy, the SSNV can uncover hidden names and addresses used by an applicant, which is why this is a critical first search.

ChoicePoint will also conduct a thorough criminal background check through access to criminal records across all 50 states, by combining records from multiple sources, including fugitive file and government watch lists, state sex offender registries, state and county criminal records repositories, ChoicePoint proprietary criminal records, state departments of corrections, and administrative offices of the courts.
