Personal Conduct

SUMMARY OF VIDEO:

Petty Officer Burkett displays insensitivity towards the impact his Personal Conduct has on himself, others and the organization. Staying out late the previous night, PO Burkett is unprepared for work the next day. When approached by shipmates, PO Burkett exhibits an obvious lack of Accountability and Responsibility during his professional interactions. Additionally, his lack of Self-Awareness impacts his professional and personal life. Internalizing Coast Guard Leadership Competencies, PO Burkett displays superior Personal Conduct, Accountability and Responsibility and Self-Awareness.
